▶ 6.0 million passengers, -1.9%

- Please note that 2020 being a leap year, reported February traffic and capacity figures are mechanically increased due to one additional day of operations.
- February 2020 traffic figures reflect essentially the suspension of all flights to and from China and the COVID-19 initial impact in Asia.
- The following months will be more impacted given the expansion of COVID-19 on other parts of the world and the extension of capacity reduction.
- For example in March 2020, Air France now expects to cancel 3600 flights, capacity compared to initial plan being reduced by -13% on Long Haul network, -25% on European network and -17% on domestic network. KLM expects to reduce Long Haul operations with similar level.
- The Group continuously monitors the situation and accordingly evaluates if additional network adjustments are required.
